

Student Chapter Advisory Committee Report

November 6, 2014

- Status of Chapters
 - Roughly 79 active chapters after contacting the advisors this year
 - 4 volunteers helped contact advisors and inform them of advisor membership requirements and remind them to submit update forms
- Regional Mentors/Advisors
 - We are drafting a job description for regional mentors. These would be professionals living in a region who provide advice to the rapidly changing student Regional Directors.
 - Other responsibilities may include contacting advisors in the region each year
- The NSC has many exciting projects and is made up of a very hard-working team of students
 - More active Regional Directors now than ever
- Video
 - The video is finished and posted: <http://www.cphi.org/affiliated-groups>
 - Placed to draw attention to the chapter resources.
- Volunteers
 - Although the committee is large, our volunteers have multiple important demands on their time, such as their jobs and families. For this reason, projects such as contacting advisors and contacting delinquent members continue to be very slow and cannot realistically be considered part of the day-to-day operations of the committee. Priority is placed on supporting the NSC, answering questions from advisors and establishing new chapters, and streamlining communication
