

Memories of Warren Weaver

by Herbert Hames, R.Ph., CPFI Board Member and past President

I met Warren and Esther in Orlando at the first annual meeting of the Christian Pharmacists Fellowship International (CPFI). It was held at the Sheraton and water leaked from the roof into the hotel in several places but we had a wonderful time. Warren was always very positive and outgoing to make sure everyone had a good time. I met a lot of Christian pharmacists at that meeting through Warren.

After that meeting I went home and started the prayer breakfasts at the South Carolina Pharmaceutical Association (SCPhA). Several times over the years Warren would come to South Carolina and speak at the SCPhA. Each time, just as at the national meetings, Warren would come

and tape his presentations—which were always inspiring in their focus on Warren's relationship with Jesus Christ and what Christ has to offer to all of us.

Warren had another good thing going for him. Always at his side was his wife, Esther. She gave moral support not only to Warren, but to all in attendance at these meetings.

It was a pleasure to go to the CPFI annual meetings and be refreshed by being with Warren. He always had time for anything you would like to talk about – especially about the Lord. What an inspiration his life has been to all of us! ✂
